

Welcome to Homeland Hospice. The opportunity to be of service at the end of life is a privilege and opportunity second to none. Our organization, Homeland Center, considers an additional element to be equal to this opportunity and privilege. This element is the recognition, and subsequent fulfillment, of providing the highest level of quality service and quality of life to a patient who entrusts the end of their life to us. We recognize fulfilling this responsibility requires focus, compassion, and most important, heartfelt actions. We further understand this commitment extends to the family and loved ones for whom we fully accept this responsibility. Fulfilling this is premised on the quality, commitment, and heartfelt actions of our staff.

This is the foundational understanding, for which I fully commit, to those who have entrusted us with this precious moment. I further extend this commitment on behalf of all Homeland Hospice staff and volunteers. If I can be of any assistance, please contact me. This offer of assistance is not predicated on Homeland Hospice providing service to you or your loved one. This offer is predicated on understanding our assistance is not a product of selecting Homeland Hospice, but is a heartfelt action to you at which could be the most important moment in life, death.

Barry S. Ramper II, NHA  
President/CEO
